This summer we are proud to offer the California State University Bakersfield (CSUB) Summer Bridge Math Institute at Ecclesia Christian Fellowship. The CSUB and Ecclesia Christian Fellowship will sponsor this exciting program. We will offer this intensive academic program to incoming 9th grade students. The goal of this summer program is to help prepare students for high school mathematics and college requirements in mathematics.

The CSUB Summer Bridge Math Institute and Ecclesia Christian Fellowship prepares students for success in college while providing them the opportunity to share in the African American community's tradition of excellence and accomplishment.

Summer Bridge Math Institute is a free six-week intense fun five hours a day/five days a week course that is designed to improve students' math skills in the critical subject of Algebra. The courses are taught in small classes by a certified math instructor and supported by online instruction. The staff is chosen to reflect the needs of students and the unique resources of the African American community. Every student in the Summer Bridge Math Institute takes a challenging algebra course that prepares him/her for the Fall 2019 academic year. This program also provides individual tutoring and pre-college advising to all participants.

Summer Math Institute is designed for Middle School and High School students who are having difficulties in math or are preparing to take Algebra courses in Fall 2019.

This challenging academic experience provides students with a repertoire of skills that allows them to pursue college majors requiring mathematics.
